

# Distinctively Segue

*These are just a few things that make Segue distinctive from other cabinet manufacturers.*

<b>Cabinet Box</b>	Segue's cabinet is constructed with 3/4-inch plywood and natural Maple veneer interiors. The box has mortise and tenon joints and matching wood veneer edgbanding on all front edges. Tops and bottoms are 3/4-inch plywood. Backs are 1/4-inch plywood with 3/4-inch hanging rails.
<b>Drawers &amp; Rollouts</b>	Drawer boxes are beautifully dovetailed 5/8-inch hardwood with 1/2-inch bottoms. Drawers and rollouts are hand sanded, assembled, sanded again, then finished on all sides for a fine furniture look.
<b>Slides</b>	Blum Tandem Plus, full extension undermount glides, with the integrated Blumotion™ are standard on Segue drawers. Blumotion™ adapts to different weights and closing forces to give a smooth, silent close every time.
<b>Ends</b>	Integral finished ends are available or for a more European style, gabled ends are an option.
<b>Shelves</b>	Shelves are 3/4-inch plywood with Maple veneer and 32mm adjustment.
<b>Hinges</b>	Blum concealed hinges with the soft-close feature are attached to the top and bottom of the case and are standard. Reveals are 1/16-inch on sides, 1/8-inch on top and flush at the bottom of the door.
<b>Finish</b>	<i>Heirloom</i> is a flat, furniture look finish. <i>Satin</i> has a slightly higher sheen. <i>High Gloss</i> is an option on selected woods and painted finishes.
<b>Options</b>	 <p><b>Platinum Interior</b> A beyond-the-ordinary platinum colored interior option is melamine veneer over plywood. Platinum drawer boxes are a gray powder coated "tandembox" with a gray veneered 5/8-inch bottom. The box has matching wood veneer edgbanding or dust gasket.</p> <p><b>Stainless Steel Sides</b> For most drawers (those measuring 40 inches in width or less), Blum's Stainless Steel "tandembox" is available.</p>
